

BCIP/NBT One Component Membrane Substrate (Purple), Solution

Cat. No.	Format	Size
0431-01	Solution	100 mL

Overview

Technical Name	5-Bromo-4-chloro-3-indolyl phosphate/nitro blue tetrazolium
Reaction Product	Produces an insoluble, dark purple end product upon reaction with alkaline phosphatase (AP)

Applications

WB

Product Use

- Ready to use formulation; dilution of the substrate is not recommended

Handling and Storage

- Recommended storage is at 2-8°C.
- Protect from light. Reagent is stable for the period shown on the label if stored as directed.

Warning

Reagent contains proprietary ingredients. Please refer to product specific (M)SDS.

For Research Use Only. Not for Diagnostic or Therapeutic Use.
