

## Bovine Type I Collagen

Cat. No.	Format	Size
1200-02	Purified Protein - Lyophilized	0.25 mg
1200-02S	Purified Protein - Solution	0.5 mg

ELISA plate was coated with serially diluted Bovine Type I Collagen (SB Cat. No. 1200-02). Purified collagen was detected with Goat Anti-Type I Collagen-BIOT (SB Cat. No. 1310-08), Goat Anti-Type II Collagen-BIOT (SB Cat. No. 1320-08), Goat Anti-Type III Collagen-BIOT (SB Cat. No. 1330-08), Goat Anti-Type IV Collagen-BIOT (SB Cat. No. 1340-08), Goat Anti-Type V Collagen-BIOT (SB Cat. No. 1350-08), and Goat Anti-Type VI Collagen-BIOT (SB Cat. No. 1360-08) followed by Streptavidin-HRP (SB Cat. No. 7100-05).

## Overview

<b>Source</b>	Placental villi
<b>Purification</b>	Controlled and limited pepsin digestion followed by selective salt precipitation
<b>Purity</b>	> 90% by SDS-PAGE
<b>Alternate Name(s)</b>	COL1A1, COL1A2

## Description

Collagen is the main structural protein in the extracellular space and is the most abundant protein in the ECM. Collagens are divided into two classes - fibril (types I, II, III, V) and non-fibril (types IV, VI). Type I collagen is the most abundant collagen and is expressed in almost all connective tissues including skin, tendon, and bone tissue. It is also the predominant component of the interstitial matrix. Type I collagen mutations are associated in a range of diseases including osteogenesis imperfecta and Ehlers-Danlos syndrome. Type I collagen consists of two  $\alpha 1(I)$  chains and one  $\alpha 2(I)$  chain.

## Applications

ELISA – Quality tested  
 SDS-PAGE – Quality tested  
 SPR – Reported in literature <sup>2</sup>  
 Coating Material for –  
     Adhesion Studies – Reported in literature <sup>1-3</sup>  
     Migration Studies – Reported in literature <sup>4</sup>

## Handling and Storage

- The purified protein is supplied as a solution of 0.5 mg collagen in 1.0 mL of 500 mM acetic acid or 0.25 mg collagen lyophilized from 500 mM acetic acid. Store at 2-8°C.
- Reconstitute lyophilized protein in 500 mM acetic acid.
- Reagents are stable for the period shown on the label if stored as directed.

## Warning

Reagents contain acetic acid. Please refer to product specific SDS.

**For Research Use Only. Not for Diagnostic or Therapeutic Use.**
